Total Surface Area (SF)= 530.86 Subtotal Duct Weight = 639 lbs

Allowance: **25%** 160 lbs

Total Duct Weight = 798 lbs

Cost per lb. = **\$15.00** \$/lb

Total Cost = \$11,975

Notes:

1) Surface Area = (2 x W x L) + (2 x H x L)

2) Calculated Weight does not include allowance for scrap
